The structure of higher education in Great Britain is very complex. The main sources of higher educational institutions are: universities (including the Open University) 1, teacher-training colleges and polytechnics. British universities come in all ages, sizes and shapes. The oldest of them, Oxford and Cambridge, founded in the 12th and 13th centuries took the students from all over the country. The younger civic 2 or “Redbrick” universities 3 serving the needs of their cities were organized in the 19th century. The newest “Whitebrick” universities 4 came into existence during the 1960s. Admission to universities is by examination or selection in the form of interviews. Applications from candidates for admission to nearly all universities are submitted to the Universities’ Central Council on Admissions (UCCA) 5. It is the UCCA that sends the copies to different universities and each university selects its own students. British universities are independent, self-governing institutions. Although they all receive financial support from the state (about 79 per cent), the Department of Education and Science 6 has no control over their regulations, curriculum, examinations and the way in which the money is spent. Teacher education includes all forms of education provided mostly by teacher-training colleges which receive their grants directly from the Department of Education and Science.

2. Write an informal letter to your British friends you stayed with last month. Tell them about your life when you returned home, thank them for their hospitality.

Пример неофициального письма.

Dear Rashid,

It was great to hear from you and I'm really glad that things are working out for you down under. It sounds as if you have landed on your feet!

Many thanks for your kind invitation to come and stay with you and Maybeline in Perth, but I'm going to have to turn you down this time. The problem is that I'm just too busy studying for my IELTS exam and I don't have enough time in the day as it is. Perhaps I can take you up on your offer sometime next year, when I hope that I'll have got that magic band score 8.0.

My other news is that Acme have offered me a promotion and soon I should be the senior accounts manager. Obviously that means more money but the downside is that I'm almost certainly going to have to work much longer hours too. There's a cloud to every silver lining! Anyway, I must get down to work again. So thanks once more for your kind invitation and I do hope that we can get together sometime in the not too distant future.

All the best

Dominic

Научное исследование – это целенаправленное познание, результаты которого выступают в виде системы понятий, законов и теорий. Характеризуя научное исследование, обычно указывают на его следующие отличительные признаки: это обязательно целенаправленный процесс, достижение осознанно поставленной цели, четко сформулированных задач; это процесс, направленный на поиск нового, на творчество, открытие неизвестного, на выдвижение оригинальных идей, новое освещение рассматриваемых вопросов.

Научное исследование характеризуется систематичностью: здесь упорядочены, приведены в систему и сам процесс исследования, и его результаты; ему присуща строгая доказательность и последовательное обоснование сделанных обобщений и выводов. Объектом научно-теоретического исследования выступает не просто отдельное явление, конкретная ситуация, а целый класс сходных явлений и ситуаций, их совокупность. Цель, непосредственные задачи научно-теоретического исследования состоят в том, чтобы найти общее у ряда единичных явлений, вскрыть законы, по которым возникают, функционируют, развиваются такого рода явления, т. е. проникнуть в их глубинную сущность. В качестве основных средств научно-теоретического исследования применяют следующее: совокупность научных методов, всесторонне обоснованных и сведенных в систему; совокупность понятий, строго определенных терминов, связанных между собою и образующих характерный язык науки. Результаты научных исследований воплощаются в научных трудах (статьи, монографии, учебники, диссертации и пр.) и затем, после их всесторонней оценки, используются в практике, учитываются в процессе практического познания и в обобщенном виде включаются в руководящие документы.

Пример официального письма.

Dear Mrs Smith,

I would like to apply for the position of Marketing Intern as advertised on studentjob.co.uk. I am a second-year student studying BSc Marketing at the University of Cardiff.

I have always had a keen interest in marketing which influenced my decision to study marketing at university and part-take in my extracurricular activities. I am an active member of the Marketing Society where I help arrange events, society meetings and talks from prospective employers. Through my part-time job, I was responsible for establishing an effective marketing campaign for the launch of a new boutique in the centre of Cardiff, using various methods such as social media. I therefore have a strong understanding of how modern day marketing techniques can be used for business opportunities and networking. Furthermore, I was elected as the Team Leader as part of my degree module "Student Enterprise" where we were required to develop our own business idea and pitch it to potential investors against an opposing team. This allowed me to develop my leadership skills by delegating the appropriate roles and responsibilities to each team member, ensuring the team would successfully reach our aims and objectives.

I have many skills which I am able to contribute to the job role. My excellent communicational skills (both written and verbal) allow me to interact with members of an organisation from all levels. I have developed my public speaking and presentation skills through completing university

presentations to new and prospective students and to my faculty department. I am organised, efficient and strive to complete any challenge given to me to the highest standard.

Attached is a copy of my CV. I am able to provide the names of referees who will support my application.

I look forward to hearing from you.

Yours faithfully,

Joe Bloggs
