The Syllabus

Foreign Language (Russian Language in the Professional Field)

Developed in accordance with Federal State Educational Standard:

Federal State Educational Standard of higher education in the specialty 31.05.01 General medicine (Order of the Ministry of Education and Science of the Russian Federation on 12.08.2020 r. N 9 8 8)

Based on the Curriculum:

31.05.01 GENERAL MEDICINE Specialization: General Medicine

Approved by the Academic Council of Surgut State University, 13.06.2024 Record № 5.

The Syllabus was approved by the department

Linguistics and translation studies

Head of Department, PhD in Philology, Evlasyev Alexander Petrovich

	1. COURSE OBJECTIVES
	The main aim of the course "Foreign language in the professional field (Russian language)" is to develop and improve professional and communicative skills of medical students from foreign countries, including linguistic, socio-cultural, strategic, discursive, speech, information and communication and others. These basic components ensure the achievement of the required level of professional communication in Russian language, willingness and ability to solve professional and communicative tasks in the professional activity, compliance with social norms and relationships.
1.2	

	2. COURSE OVERVIEW						
Course	e code (in curriculum): B1.O.02						
2.1	Assumed background:						
2.1.1	The student should master a vocabulary of at least 2300 lexical units, develop skills and abilities in all types of speech activities (speaking, listening, writing, reading) used in various social, everyday, socio-cultural and educational situations. Students should master the bulk of semantic-syntactic constructions of the Russian language, linguistic, speech and communication material that allows to communicate with native Russian speakers. Language level is A1-A2						
2.1.2	The students are able to communicate with people, to get to know someone, to introduce oneself or to represent another person, say hello, say goodbye, address someone, thank, apologize, respond to gratitude and apologies, congratulate, ask to repeat, ask again, express a wish; advice, proposal, invitation, agreement or disagreement, refusal, permission or prohibition, promise, uncertainty; to express their attitude: evaluate a person, object, fact, action, event.						
2.2	Post-requisite courses and practice:						
2.2.1	Professional Practice in Obtaining Nursing Assistance Professional Skills and Experience						
2.2.2	Educational Practice in Research (primary research skills)						
2.2.3	Professional practice, assistant diagnostician (uzist)						
2.2.4	Professional Practice, Physician Assistant						
2.2.5	Professional Practice, Surgeon Assistant						
2.2.6	Professional Practice, Obstetrician and Gynecologist Assistant						
2.2.7	Preparation for State Final Examination						

	3. COMPETENCES UPON COMPLETION OF THE COURSE (MODULE)	
GPC-2:	Ability to be ready for oral and written communication in Russian and Foreign languages in order to solve the probeonnected to the professional activity	ems
PC-1:	Ability and readiness to implement a set of measures which aim is to preserve and to make health stronger. These measures include the formation of a healthy lifestyle, prevention of the occurrence and (or) spread of diseases, their early examination, identification of the causes and conditions of their occurrence and development, as well as aimed at eliminating the harmful effects of environmental factors on human health	

By the end of the course students must:

3.1	Know:
3.1.1	functional styles to choose accordingly in different conditions of communication;
3.1.2	methods of demonstrating results of academic activity in the state language and a foreign language
3.1.3	
3.1.4	phonetic, lexical, grammatical and stylistic phenomena of the Russian language
3.2	Be able to :
3.2.1	analyze and summarize the information obtained during the study;
3.2.2	
3.2.	3 implement effective speech communication as a part of educational, research and professional activities
3.2.	4 follow communication norms adopted in scientific environment
3.2.	5
