Diagnostic Testing

Discipline «Theoretical bases of studying patient care»

Curriculum	31.05.01
Specialty	General Medicine
Form of education	Full-time
Designer Department	Multidisciplinary Clinical Training
Graduate Department	Internal diseases

Competence	Task	Answer	Type of complexity
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Choose one correct answer: 1. Disinfection is -	a) Destruction of all types of bacteria b) Destruction of pathogenic microorganisms c) Destruction of vegetative forms of microorganisms and their toxins d) Destruction of infected insects	low
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Choose one correct answer: 2. Emergency care in the absence of a pulse, breathing and consciousness begins to be provided	a) in the treatment room b) in the intensive care unit c) in the intensive care unit d) at the development site	low
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Choose one correct answer: 3. The type of transportation determines	a) a nurse according to the condition of the patient b) a nurse in accordance with the patient's well-being c) a doctor in accordance with the patient's well-being d) a doctor according to the condition of the patient	low
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Choose one correct answer: 4. The pulse of an adult at rest is 98 beats per minute.	a) norm b) tachycardia c) bradycardia d) arrhythmia	low
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Choose one correct answer: 5. In the first period of fever, it is possible to use	a) wet wrap b) heating pads c) cold compress d) ice pack	low
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Choose one correct answer: 6. To prevent bedsores, it is necessary to change the position of the patient every (in hours)	a) use an anti-decubitus system b) change diapers in a timely manner and wash the patient c) 10% camphor alcohol d) change the position of the patient every 2 hours e) all of the above f) None of the above	medium
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	List all correct answers 7. Class B medical waste includes all but	a) Medicinal (including cytostatics), b) Diagnostic, disinfectants not to be used. c) Mercury-containing objects, devices and equipment. d) Wastes from pharmaceutical activities, production of medicines and medical devices, production, storage of biomedical cell products, activities in the field of the use of pathogens of infectious diseases and genetically modified organisms for medical purposes; e) All of the above f) None of the above	medium
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	List all correct answers: 8. Class B medical waste includes (select all correct answers)	a) waste of microbiological, clinical diagnostic laboratories; b) waste contaminated and potentially contaminated by microorganisms c) 1-2 pathogenicity groups; d) from the production and storage of biomedical cell products; e) biological waste from vivariums; f) live vaccines not suitable for use. g) All of the above h) None of the above	medium
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Write down the numerical answer: 9. The duration of the measurement of body temperature in the axillary region is not less than ____ (in minutes)		medium
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Write down the numerical answer: 10. The solution must be warmed before instillation into the ear to a temperature ____ (B 0C)		medium
GPC-6.1	Choose one correct answer:	a) an airlock is introduced	medium

GPC-6.2 PC-2.1 PC-8.3	11. When conducting an oil enema, be sure to	b) a glass of water is given c) sleeping pills are administered d) put on a diaper	
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Write down the numerical answer: 12. To set up a siphon enema, clean water must be prepared ____ (in l)		medium
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Choose the right answer: 13. The properties of the pulse includes ____	a) synchronicity b) tone c) frequency d) type	medium
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Write down the numerical answer: 14. The required amount of vegetable oil for setting an oil enema (in ml) ____		medium
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	List all correct answers: 15. Contraindications to the use of heating pads	a) acute appendicitis b) stroke c) bleeding d) hypothermia	medium
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	List all correct answers: 16. Requirements for applying bandages:	a) the head of the bandage must be outside b) the head of the bandage should be on the side of the human body c) when applying tours, bandage without breaking away from the human body d) the bandage is applied in a way that is convenient for the nurse, e) the dressing is applied with gloves	high
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	List all correct answers 17. The cause of occupational HIV infection can be	a) incorrect actions in an HIV emergency b) neglect of personal protective equipment c) caring for an HIV patient using personal protective equipment. d) general cleaning in the infectious department	high
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	List all correct answers: 18. The criterion for finding the probe in the stomach is:	a) pale skin and shortness of breath b) the appearance of a cough c) the appearance of cloudy liquid on the probe d) blowing noise during air sampling	high
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	Choose all correct answers: 19. The main symptoms of the first period of fever:	a) chills b) thirst c) feeling hot d) cold skin	high
GPC-6.1 GPC-6.2 PC-2.1 PC-8.3	List all correct answers: 20. Contraindications for administering a siphon enema are:	a) rectal cancer b) suspected intestinal obstruction c) constipation in a patient with massive edema d) inflammation of the rectum	high
